#### ABOUT MARY LOUIS

*I invite you to provide our time and your lifestyle with high-quality real materials, giving them your own touch of creativity!*

Mary Louis lives and works in the city of Oporto. She is dedicated to the conception and development of jewellery pieces that bring out her personality and creativity while also offering a way of expression for the style of each and every person using her pieces.

The art of jewellery is grounded on concrete proofs and certainties, similarly to the universe of truth and exact sciences, but it also relies on things that touch us and we can not describe. The Mary Louis unicorn (logo of the brand) conveys the influence exerted by the world of dreaming and fantasy on the production of her pieces. The collections of this designer stand out for their combination of authentic forms, quality materials and careful crafting.
